The left side of the slide features a series of vertical stripes in shades of brown, tan, and grey. Overlaid on these stripes are several orange circles of varying sizes, arranged in a cluster that tapers downwards.

GRADIENT

- CSS3 defines two types of gradients:
 - **Linear Gradients (goes down / up / left / right / diagonally)**
 - **Radial Gradients (defined by their center)**

LINEAR

- must define at least two color stops
- set a starting point and a direction (or an angle) along with the gradient effect

```
background: linear-gradient(direction, color-stop1, color-stop2, ...);
```

Linear Gradient - Top to Bottom (this is default)

The following example shows a linear gradient that starts at the top. It starts red, transitioning to blue:

Example

A linear gradient from top to bottom:

```
#grad {  
  background: -webkit-linear-gradient(red, blue); /* For Safari 5.1 to 6.0 */  
  background: -o-linear-gradient(red, blue); /* For Opera 11.1 to 12.0 */  
  background: -moz-linear-gradient(red, blue); /* For Firefox 3.6 to 15 */  
  background: linear-gradient(red, blue); /* Standard syntax */  
}
```

```
div
{
    height: 200px;
    background: -webkit-linear-gradient (red, yellow) ;
    background: -webkit-linear-gradient (left, red, yellow, purple, black) ;
    background: -webkit-linear-gradient (bottom right, red, yellow) ;
    background: -webkit-linear-gradient (-180deg, red, yellow, purple, black) ;
background: -webkit-linear-gradient (left, rgba (255,0,0,0) , rgba (255,0,0,0.5) , rgba (255,0,0,1) ) ;

    text-align: center;
    font-weight: bold;
    font-size : 5em;
    color: grey;
    text-shadow: 2px 2px 10px white;
}
```

Sample

RADIAL

```
background: -webkit-radial-gradient(red,yellow);  
background: -webkit-radial-gradient(red 5%,yellow 20%,orange 5%);  
background: -webkit-repeating-radial-gradient(red,yellow 10%,green 20%);
```
